

IN THE SPECIFICATION:

Please amend the specification as follows.

Replace the paragraph that begins at page 6, line 5, with the following:

– The acknowledgment is carried out after establishing respective connection [routs] routes from the sender to the receivers. A centralized supervisory system is used in which a server for multi-destination delivery performs the acknowledgment for all receivers (having been registered). –

Replace the paragraph that begins on page 10, line 14, with the following:

– A detailed description will be given of each field of the common header (MF header) portion. Reference is first made to Fig. 10. –
